ENGLAND'S REPLY IS FRIENDLY

No Desire to Unnecessarily Interfere With American Shipping

BUT WOULD STIMULATE PROPER COMMERCE.

BUYING GERMAN SHIPS

If Used By the United States for South American Trade Only, Would Satisfy the Allies—Tone of Note is Wholly Conciliatory.

(Associated Press Telegram)
London, Jan. 7.—The reply of Great Britain to the American note regarding interference with American shipping, it is said in well informed quarters is wholly conciliatory and shows a disposition on the part of England to do everything within reason to avert delay to American shipping, at a time when freight rates are high and consequently loss of time is costly to shipowners.

England wishes to do everything in its power, consistent with the proper safeguarding of the interests of the allies, to facilitate world trade and stimulate commerce, paralyzed as it is by war conditions.

Consequently, it is declared, there is no disposition on the part of England to protest against the purchase of German vessels by Americans where the sales are genuine, and the ships are not used so as to avoid what might reasonably be called the consequences of belligerency.

The use of transferred German ships in the cotton trade with Germany probably would call forth objections from the allies, although cotton is not contraband, because the allies, it is said, would regard such use as a roundabout means of escaping the effects of the war.

At any rate, objection is not likely to come until ships are actually transferred and their prospective use is clearly indicated. It is probable the allies will take the position that the sale money shall be held until the close of the war as a guarantee that it will not be of assistance to belligerents.

An assurance that German ships purchased by the United States government or its citizens would engage in the South American trade only probably would satisfy the allies and prevent any formal objection, as a stimulation of the trade with South America is greatly desired by all the allies.

While it is pointed out that the sale of German ships in the New York harbor to the American government or its citizens would inevitably relieve German citizens of the heavy expense of maintenance and insurance, undoubtedly consequence of war within the meaning of international practice, still England would be willing to waive objections on this point with other vessels to enter trade in no way beneficial to Germany, Austria, or Turkey.

All Passports Issued Will Have to be Certified by The American Embassy at London

(Associated Press Telegram)
London, Jan. 7.—All passports issued by the state department at Washington will in the future have to be viced by the American embassy in London if the traveler passes through London. Furthermore, the bearers of American passports, previous to leaving England for the continent, will have to submit their passports to the consul in London of the country whither they are going for the consular stamp.

All the Americans who reached England yesterday on board the steamer Lusitania have been required to observe the first of these formalities; those who proceeded to France and Holland had to have their passports stamped.

Passports issued by Sweden and other neutral countries of Europe also have been discovered recently in the hands of persons to whom they were not issued. The result of this is that neutral European countries are tightening up the regulations

United States Refuses To Officially Investigate The Charges Made by Germany.

(Associated Press Telegram)
Washington, Jan. 7.—Secretary Bryan today informed Count Bernstorff, the German ambassador, that the United States, in maintaining strict neutrality, must refrain from officially investigating or commenting upon his charges that dum-dum bullets were being furnished from this country to the allies.

Secretary Bryan told the ambassador, however, that if he could furnish proof that forbidden war materials were being shipped by American firms, President Wilson would use influence to stop the traffic without involving legal or international questions.

In a letter to Count Bernstorff, Secretary Bryan referred to denials of American manufacturers to his recent charge of dum-dum bullets and riot guns being furnished to the allies. The letter follows: "I have the honor to acknowledge the receipt of your note of the fifth ultimo, calling attention to fresh violations of the Geneva convention as well as of section 2, article 230, of The Hague convention of July 29, 1899, by the British government in the use of dum-dum bullets.

"I can assure your excellency that I am not unmindful of the spirit in which you bring to the attention of this government the improper practices which are alleged to have occurred in the conduct of the present war. But, while this government may take these statements and charges under consideration, it is, in its effort to maintain a strict neutrality in the present conflict, obliged to refrain from investigating their truthfulness or making any comment in regard to them.

"The time will come, however, when the truth may be impartially determined, and when the judgment of the world will be passed upon the charges made by the various belligerents of violations of the rules of civilized warfare.

"Your excellency also states that the British government has ordered from the Winchester Repeating Arms company, 20,000 riot guns, model 1887, and 50,000,000 buckshot cartridges for use in such guns. This department saw a published statement of the Winchester company, the correctness of which the company has confirmed to the department by telegraph. In this statement the company categorically denies that it has received an order for such guns and cartridges, or made any sale of such material, to the British government, or to any other government engaged in the present war.

"Your excellency further calls attention to information, the accuracy

of which is not to be doubted that 8,000,000 cartridges, fitted with 'mushroom bullets' have been delivered since October of this year by the Union Metallic Cartridge company for the armament of the English army.

"In reply I have the honor to refer to the letter of December 10, 1914, of the Remington Arms-Union Metallic Cartridge company of New York, to your excellency, called forth by certain newspaper reports of statements alleged to have been made by you in regard to the sale by that company of soft-nosed bullets. From this letter, a copy of which was sent to this department by the company, it appears that instead of 8,000,000 cartridges having been sold, only a little over 117,000 were manufactured and 109,000 were sold. The letter further asserts that these cartridges were made to supply a demand for a better sporting cartridge with a soft-nosed bullet than had been manufactured heretofore, and that such cartridges cannot be used in the military rifle of any foreign power. The company adds that its statement can be substantiated and that it is ready to give you any evidence that you may require on these points.

"This department is now in receipt from the company of a complete detailed list of the persons to whom these cartridges were sold. From this list it appears that the cartridges were sold to firms in lots of 20 to 2000, and one lot each of 3000, 4000, 5000. Of these only 960 cartridges went to British North America, and 100 to British East Africa.

"If, however, you can furnish this department with evidence that this or any other company are manufacturing or selling for the use of the contending armies in Europe, cartridges whose use would contravene The Hague convention the government would be glad to be furnished with the evidence and the president directs me to inform you that in case any American company is shown to be engaged in this traffic he will use his influence to prevent so far as possible sales of such ammunition to the powers engaged in the European war without regard to whether it is the duty of this government upon legal conventional grounds to take such action.

"In view of the publicity which has been given to your excellency's complaint addressed to the department in these matters it is taken for granted that there can be no objection on your part to equal publicity being given to this note and the letter of the Union Metallic Cartridge Company addressed to you on December 10, 1914.

"Accept, Your Excellency, the renewed assurances of my highest consideration."

Still Another Revolution In Haiti Reported

(Associated Press Telegram)
Washington, Jan. 7.—Another revolution, headed by leaders of the government recently overthrown by President Theodore, has broken out in Haiti. Cape Haitien is being attacked and dispatches to the state department today say it may fall within 24 hours. The United States steamer Wheeling is standing by to protect American interests.

SCRAMBLE

FOR STATE APPOINTMENTS EXPECTED TO REACH ITS HEIGHT SATURDAY.

When Governor-Elect Willis Reaches Columbus—He is in No Hurry to Announce Any.

(Associated Press Telegram)
Columbus, Jan. 7.—With the arrival of Governor-Elect Frank B. Willis in Columbus some time Saturday, the scramble for appointments within the gift of the executive is expected to approach its height. It is generally believed Governor Willis will not be in a hurry about announcing his selections in most cases. One of the appointments expected soon, however, is that of state Commissioner of Soldiers' claims. Former U. S. Senator Joseph B. Foraker, and Myron T. Herrick, former governor and former ambassador to France, it is announced have endorsed Dr. W. F. Galbreath, of Columbus for this place. Dr. Galbreath is a ward of the Dayton soldiers' home and is said to have the backing also of other influential physicians.

VENEZUELA WANTS A CONFERENCE ON NEUTRALITY RULES.

(Associated Press Telegram)
Washington, Jan. 7.—The minister from Venezuela has presented for consideration today to the commission of nine of the Governing board of the Pan-American union, the proposal of Venezuela that a conference of all neutrals of the world be held in Washington, to revise the rules of international law with reference to contraband and seizures of ships.

Arrest of Belgian Prelate May Cause Pope Benedict To Protest Incident to Germany

Leader of the Persian Kurds Fighting Russia

(Associated Press Telegram)
London, Jan. 7.—An official Turkish statement received in London from Constantinople by way of Amsterdam reads:

"Our troops advanced from Samot and Baglrons and occupied Urmia, an important Russian point of support.

"After an indecisive battle Tuesday between Russian and Turkish fleets, the Russians sank an Italian merchant ship although she was flying the Italian flag.

"Four thousand Russians have been completely vanquished near Mian-dob, losing 250 men killed while the Turks, who were aided, by Persians, lost six men.

"In fighting near Urumiah, Azerbaijan province, Persia, two detachments of Russian troops were taken prisoners and 100 men were killed. As a result of the reverse of Urumiah, the Russian morale has been broken."

French Report Advantages In Artillery Duel

(Associated Press Telegram)
Paris, Jan. 7.—The French war office this afternoon gave out an official announcement as follows:

"During the day of January 6, there occurred from the sea to the Lyons nothing other than artillery fighting in which we had almost always the advantage. Our batteries put to flight certain German aviators who were coming in the direction of Dunkirk, and they compelled a cessation of the fire of German mine-throwers in the region of Zillebeke.

"The enemy bombarded violently the head of the Belgian bridge to the south of Dinan.

"In the region of Lille we repulsed with success a violent German attack on one of our trenches. This trench, at the beginning lost by us, was recovered with great brilliancy and by the exploding of mines we demolished a portion of the German field works. Between the Somme and the Aisne there has been nothing to report except artillery engagements.

"To the east of Reims, on the Alger farm, we exploded some mines yesterday evening. This resulted in the stopping of the enemy's field work.

"In the Ardennes, there were no engagements of any importance, which the enemy did not show much activity.

"In the West, the advance made by the northward of Flirey is not to be considered as a serious matter. We made our own operations on the front of the enemy's position.

"At Stenay, the enemy has not been able to make any operation of any importance. We retained all the ground we had won on the day of January 6, the enemy bombarded the hospital at Thann."

A Pastoral Letter, In Which the Priest Advised His Countrymen Not to Give Allegiance to the German Administration, and His Subsequent Detention Have Become Two of the Chief Incidents During the Past Few Days

GERMANY'S ZEPPELINS HAVE RESUMED THEIR ACTIVITY

Possible Raid On England By These Huge Aircraft Discussed—Allies Abandon Flank Movements and Are Intensifying Pressure Between Reims and the Lorraine Frontier—Neither Germany Nor Turkey Concede Russian Victories In the Caucasus—No Material Change In Eastern Battle Front Extending From the Baltic Sea to Carpathian Mountains.

(Associated Press Telegram)
London, Jan. 7.—The German military government of Belgium has issued an official denial of the report that Cardinal Mercier, the Belgian member of the Sacred College, has been arrested by the German authorities.

(Associated Press Telegram)
London, Jan. 7.—England's reply to Washington's remonstrance against British interference with American shipping will be altogether conciliatory, according to semi-official announcements which say that apparently all danger of friction between the two nations has disappeared. England is willing to make all concessions which she deems not a direct conflict with the interests of the allies, although it is believed she will not relinquish the right to search American ships under exceptional circumstances.

Activity of Germany's Zeppelins along the French coast has revived conjecture as to a possible raid on England by these huge air craft. Several of the dirigibles are reported to have appeared near Dunkirk and are then said to have turned toward the English coast.

The reported arrest of Cardinal Mercier at Brussels on account of a pastoral letter in which he is said to have advised Belgian civilians not to recognize the authority of the German administration, has developed one of the striking incidents of the war. Pope Benedict is making an inquiry, having received no official confirmation of the report. It is said at Rome that should its truth be established the Pope would protest to Germany.

Neither Turkey nor Germany has conceded the defeat of Turkish armies in the Caucasus, as claimed officially in Petrograd. As further details of this fighting are received in London, it would appear that this reported Turkish disaster has been as complete as that suffered by any forces since the outbreak of the war. In spite of this, however, the latest official communication from Turkey altogether ignores the fighting in the Caucasus and dwells upon the struggle which has spread over the Persian frontier to Urmiah, an important town where

the Turks say that, aided by Persians, they have defeated the Russians.

In Poland the Germans apparently are not near Warsaw and there is little alteration in the battle front extending from the Baltic to the Carpathians. The Russians seem to be still concentrating their main effort in the Carpathian passes. At the same time they are continuing a vigorous offensive in Bukovina. The occupation of this Austrian territory, populated as it largely is, by Roumanians, may soon exert, in the opinion of British observers, a powerful influence throughout Europe as bringing the Balkan situation to a head.

In the western arena of military activities the allies have varied from their flank attacks which recently brought them success in the sand dunes of Flanders, and in Alsace by intensifying the pressure between Reims to the Lorraine frontier, where some ground has been gained.

The Germans, meanwhile, have sought to repair the damage done to their wings. This has resulted in the recovery of some ground for them near Steinbach in upper Alsace, but their attacks in Flanders were repulsed.

The reported detention of the Belgian prelate, Cardinal Mercier, by the Germans, presumably for the reason that he advised his countrymen not to give allegiance to the Germans administration continues to be a topic of lively discussion and speculation in London and Amsterdam.

It is reported that the Cardinal had been removed to Brussels, but this has not been confirmed. An English translation of his pastoral letter which is believed to have offended the German military authorities in Belgium, has been published in London in pamphlet form.

A dispatch received here from Rome says the Pope has requested full information on the Mercier incident from the German government. This reported action lacks confirmation; as a matter of fact another dispatch from Italy says the vatican has not yet been officially advised of the alleged arrest of the cardinal.

Victims of Subway Accident Are Now Recovering and Eight Investigations Started Today

(Associated Press Telegram)
New York, Jan. 7.—Seventy-seven victims of yesterday's subway accident were still in hospitals today recovering from their injuries. Most of them were men; some were women who had been mauled in the stampede from the street. All suffered from the effects of smoke or bruises or cuts. They were the ones who had fared worst in the panic. None was expected to die; all it was thought, would be discharged within a day or two.

The death list of what was first believed to be a great disaster remained at one. How many persons were carried unconscious from the smoke-filled tube to the street probably will never be definitely established as some of the victims did not get to hospitals and their names were not recorded. There were more than 700 men and women wedged tight in the cars at the time and estimates of the injured run up to more than 200.

Traffic on all subway lines, halted for hours after the accident, and resumed to some extent last night, was again normal at the morning rush hour today.

In the aftermath of the accident the usual machinery of investigation was set in motion. Eight separate investigations, conducted by state, city, and traction officials, were under way today.

Charles A. Perkins, district attorney of New York county hurried to Fifty-fifth street and Broadway soon after the accident and descended into the subway and examined carefully the two local trains and one express train in which the panics occurred when the short circuiting of electric and cable wires shut off the power. While still at the scene, he called witnesses before him and later heard their statements in detail.

Other investigations, several of which are already under way were ordered by Governor Whitman, the public service commission, Mayor Mitchell, the police and fire departments, Coroner Riordan and the Interborough Rapid Transit company.

The accident, coming as it did at the beginning of the morning rush hour, put the entire subway system out of operation and resulted in one of the worst traffic tie-ups in the history of the city. The quarter of a million or more people handled by the subway rushed to elevated and surface lines. Eight hours after the accident subway operation was resumed on all lines except the one under the East river to Brooklyn over which trains were not run until late last night.

A TRIAL WILL CONVINCE ANYONE—THE GREAT KIDNEY REMEDY NEVER DISAPPOINTS

A few years ago I was troubled with a complication of kidney and stomach ailments and although I tried two or three different doctors, I was unable to obtain a cure. Having heard a great deal about Swamp-Root, I decided to give it a trial and purchased a one-dollar bottle of Mr. Alexander, the druggist. From the beginning I could notice a change for the better and after taking eight bottles of your medicine, I felt entirely cured and have not had any trouble since.

Had I been using Swamp-Root sooner, I would have been a few hundred dollars to the good and saved myself a lot of suffering.

You may use my testimonial any time you wish. Yours very truly,
CHARLES E. HARRIS.

Drive Catarrh Germs From Nose and Throat

Only Way to Really Cure Catarrh Say Noted Specialists.

The germs of catarrh breed, thrive and multiply by the million far up in the air passages of the nose, throat and lungs of every catarrh victim. Catarrh is a germ disease and you cannot get rid of the disease until you get rid of the germs. The best specialists seem agreed on this point.

You can't kill germs with ointments or lotions, etc., which you stuff up your nose. These may clear your head and let you breathe easier but they do not reach the germs. Stomach dosing may purify your blood, but it doesn't kill the germs nor does it cure Catarrh.

There is just one safe, sensible and invariably reliable way to reach and destroy catarrh germs and thus stop catarrh forever. This is to breathe pure, germ-killing air of Hyomei medicated, germ-killing air of Hyomei medicated, made from the pure, healing oil of Eucalyptus combined with powerful germicidal ingredients which are certain death to every catarrh germ they reach. The air of Hyomei breathed deeply is so penetrating it reaches into every nook, corner and crevice of your nose, throat and lungs where germs can possibly hide or breed. It's an easy treatment. You'll like to breathe Hyomei. Its odor and effect is pleasant to everyone but the mischief making germs themselves. They don't like it, simply can't stand it and are completely driven from your body taking Catarrh itself with them. Hyomei is a standard preparation recognized by physicians and druggists everywhere. It is so well thought of here that T. J. Evans and many other leading druggists in this vicinity sell it with an absolute guarantee of successful cure or money back. No catarrh sufferer therefore assumes any risk in giving it a trial.

Read this notice out of the paper

now and show it to your druggist as you ask for Hyomei. Be sure to ask him for the complete Hyomei outfit as this contains a Free inhalant device which is very necessary to use to get the best results.

\$80,000 BIRD OF PRIZE BATTLE WILL BE SLAUGHTERED.

(Associated Press Telegram)

Chicago, Jan. 7.—A prize bird of blooded cattle owned by James M. Barton, a wealthy manufacturer and valued at \$80,000, have been ordered killed by government inspectors. It was announced today, because several of the cattle were found to be affected with foot and mouth disease. The herd, containing 225 cattle, was condemned a month ago, but Dr. S. E. Bennett, of the national bureau of animal industry, refused ordering the animals killed as he had hoped to eradicate the disease.

BRITISH

NEVER KNEW THE PRECARIOUS POSITION OF GERMAN ARMY ON THE AISNE

And in September Battle, Retreated, When They Might Have Split the Huge Force.

(Associated Press Telegram)

A town on the Aisne, France, December 15.—(Correspondence of the Associated Press.)—A little battle

graved by the roadside, only half dozen soldier graves with wooden crosses, marked the highway at a point reached by the British in the battle of the Aisne in mid-September.

It lies near the Chemin Desdames, (road of the Ladies), which roughly parallels the Aisne three or four miles north of the river and only a short distance from the battered sugar factory of Trion, for which the Royal Sussex regiment, the King's Royal Rifles and the Royal North Lancashire regiment paid so heavy a price in the battle of September 15. Field Marshal Sir John French registers the name in his report of October 8 in which he tells how the British forces, following the retirement of the Germans from the Marne line, crossed the Aisne east of Soissons and fought their way to the top of the ridge of hills on the north bank, where they were checked and held by the German troops.

This was three months ago; the Germans later drove the allies from the hills almost to the river and now held the ground in strong force, entrenched to the eyes. There is therefore no harm in revealing what Sir John may not have known, that a dangerous gap had opened between two of the retiring German armies at this point, that he a slightly more victorious offensive he might have thrust the British forces into the opening and split the German army in two and that it was the German army corps of which the correspondence of the Associated Press is now the guest, arrived only in time to close the hole and enable the German armies to stand on the line of the Aisne instead of continuing their retreat to some other line farther north. The English troops were already well over the crest of the ridge and the Germans had a doubly difficult task to fight their way up the steep northern slope of the range and re-establish their broken line.

The ground over which the battle then swayed is now a labyrinth of trenches, zig-zags and parallels marking the successive stages by which the German troops sapped and fought their way forward to their present lines. They now hold the greater part of the southern slope. The allies lines, now occupied by the French instead of the English, are in the lowlands of the valley. All the high points on this side of the river are held by the Germans so that the French have no observation points from which to direct the fire of their artillery. They can only fire blindly over the ridge at points where they suspect the presence of German batteries or infantry supports notably at a little village called Cerny which is now a picturesque heap of ruins as can be found along the whole Aisne front.

In the noon luncheon hour, during which the French artillery is usually silent, a shot was paid in reason to the security of the village. During the rest of the day and night shells are dropping in it at intervals. Particular attention is paid to the village well, the assumption probably being that the Germans come there for water. Half a mile away in a sheltered spot in the valley, within a radius of fifty yards, the correspondent counted 11 fresh shell holes.

"The French guessed that one of our batteries must be in that spot," said the artillery lieutenant acting as guide, "and have just dropped a salvo of shells there. The battery is not there however, as you know."

Wheels given resiliency by spring spokes were painted in England as early as 1825, in France in 1829, and in the United States in 1831.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passage of your head will clear and you can breathe freely. No more hawking, snuffing, blowing, headache, dizziness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed up with a cold or nasty catarrh—relief comes quickly.

Theatres

"The Black Diamond Express."

That the "Hazards of Helen" series is providing photoplay patrons with some of the most unusual and novel stories that have ever been shown, will be readily seen when "The Black Diamond Express," Helen's latest hazard, is shown at the Grand on Saturday. As is well known, the "Hazards of Helen" series features the captivating Helen actress, Helen Holmes, in a series of bold adventures. In "The Black Diamond Express," this courageous girl is seen through the air in an aeroplane, in her effort to overtake the Black Diamond express, and warn Dick Mallory of the fact that a posse of robbers is awaiting for him at the next station. A highly novel scene in this production shows the capture of the Black Diamond express, and the aeroplane in a mad race. This picture is unusually exciting. Don't miss it.

NEW DIRECTORY; ALL TELEPHONE SUBSCRIBERS NOTICE

The Newark Telephone company is now preparing the annual directory of the company's 5,100 subscribers. It will be divided into several sections as follows: Newark, Farmer, Granville, Hanover, St. Louisville, Gratiot and Brownsville, Glenford and Somerset. This is the first time all the exchanges have been grouped together in one publication, and the book with the classified business directory will take up about 150 pages.

The directory will go to press about February first, after which date absolutely no changes, corrections or insertions will be made. If you wish any change made in your name, address or number please notify the chief operator, telephone number 1170, without delay, so that it may be attended to in proper time.

ACT QUICKLY.

Delay Has Been Dangerous in Newark.

Do the right thing at the right time.

Act quickly in time of danger.

In time of kidney danger Doan's Kidney Pills are most effective.

Plenty of Newark evidence of their worth.

Mrs. Charles Korzenbon, 128 Fleek avenue, Newark, says:

"About three months ago I had a pretty severe case of kidney trouble. I suffered from terrific pains in the small of my back and at times I was so dizzy I couldn't stand without putting my hand on the wall to steady myself. The kidney secretions were unnatural and caused me a lot of annoyance. A relative had used Doan's Kidney Pills with success and advised me to try them. I got a supply at Smith's drug store and after I had taken one box I felt like a different woman. I can now do my work with ease and sleep soundly. I cannot praise Doan's Kidney Pills too highly."

Price 50c at all dealers. Don't simply ask for a kidney remedy; get Doan's Kidney Pills—the same that Mrs. Korzenbon had. Foster-Milburn Co., Props., Buffalo, N. Y.

Dr. Wiley Prepares an Ideal Food Box For Starving Belgium

New Plan of Relief Suggested by Washington Woman—How You Can Aid the Stricken Little Sister of the World

By WILL IRWIN

MRS. JOSEPH DARLING DIRECTING THE PACKING OF IDEAL FOOD BOXES.

THIS is going to be a pretty hard winter in America. The war in Europe has disturbed business in every direction. We have a few hungry people ourselves. And yet Belgium, a brave little, thrifty little nation of 7,000,000 people, is going to starve to death this winter unless America feeds the Belgians. How are we going to take care both of our own and of the "stricken little sister of the world?"

A woman solved the problem. Mrs. Joseph Darling of Washington had been knitting stockings and scarfs for European war sufferers until it occurred to her that she might be using her brains as well as her fingers. She sat down forthwith and thought out the idea of "food boxes for Belgium." Mrs. Darling saw Dr. Harvey Wiley, who laid out the ideal food boxes for Belgian relief, and their plan has now been taken up by the woman's section of the commission for relief in Belgium, of which Mrs. Lindon Bates is chairman.

Dr. Wiley's box for Belgian adults, as slightly revised to get its weight inside the parcel post regulations, is as follows: Three No. 3 tins of beans, three No. 1 tins of pink Alaska salmon, one five-pound sack of rolled oats, one five-pound sack of yellow cornmeal, one five-pound sack of yellow split peas, one two-pound sack of granulated sugar, one three-pound sack of California prunes, one seven-pound sack of wheat flour, one one-pound sack of salt, one can opener, one box.

That, however, is only a guide to the kind of food which the Belgians need. It is intended mainly for such Americans as can afford to go and order boxes from the grocer. Belgium wants any kind of food which will stand ocean transportation, which excludes fresh fruit and vegetables.

The commission for relief in Belgium has arranged with the postoffice department to transmit all Belgian relief foodstuffs free of cost to the donor. If you put your name and address on the package and add the letter "R" the money expended for stamps will be refunded by the commission. The package should weigh not less than twenty pounds and not more than fifty.

MR. RADER HAD COSHOCTON FOLK HIGHLY EXCITED

Clarence F. Rader, president of the Hub clothing company here and head of the Buckeye at Coshocton, and a similar store at Marion, had Coshocton people guessing for a week as to the real meaning of a series of advertising announcements appearing in the Coshocton papers.

The announcements promised sensational revelations, and hinted that city or county officials would be interested in them. It so happened that certain controversies involving Coshocton officials were in the public eye and people wondered if the revelations were connected in any way with the city or county official circles.

Each advertisement bore the cryptic signature "Clarence of Newark," and each contained a reproduction from a photograph which showed nothing which could be taken as a clue to the identity of the advertiser.

In Tuesday's papers, "Clarence of Newark" announced that on Wednesday he would make public the information he held. The advertisement said:

"I have decided to expose at once a most startling revelation. To these it does not affect, they need not worry. However, to those of you who are sure to become involved, I offer no apology for an act which I deem necessary. Watch this paper.

"Clarence of Newark." True to his promise, Wednesday's papers contained the announcement of a big sale of clothing and furnishings to reduce stock. The Wednesday announcement filled a whole page, contained a three column cut of Mr. Rader in the clothing store and offered splendid values at one-fourth to one-third off.

Needless to say the advertisement was read by every patron of the newspapers in which it appeared.

Life Sentence Is Commuted To Ten Years

Associated Press Telegram.
Columbus, Jan. 7.—Governor Cox today commuted to 10 years the life sentence of Don Harvey Hazel, Toledo boy, who killed his mother in 1908 and was sent to the penitentiary for murder in the first degree. The boy will be released in June. The state board of pardons recommended his unconditional release nearly a year ago but no action was taken by the governor then.

Hazel is 24 years old and was only 16 when he entered the big prison. He has become an expert electrical and gas engineer, it was said at the prison.

Since the board of pardons took its action, young Hazel has been under close investigation by the governor. Once he was called to come to the governor's office and this morning Dr. A. F. Sheperd, member of the state board of administration, had a long talk with the boy at the prison. Later Dr. Sheperd told the governor he believed that Hazel is thoroughly normal in every way and that it is a defective when he entered the penitentiary, a physical and moral regeneration has come about.

Hazel has been a good prisoner and earned "good time" which reduced his 10 year term to about eight years of actual imprisonment.

Cleveland Sues To Enjoin Issue Of Light Bonds

Associated Press Telegram.
Columbus, Jan. 7.—City Solicitor John N. Stockwell and Albert H. Weed of Cleveland, appeared before the supreme court today in the city's suit to enjoin the board of sinking fund trustees, from selling \$500,000 electric light coupon bonds. Weed, in behalf of the city, asked the court to review the case, which was brought up from the court of appeals of Cuyahoga county, and declared records had been printed and would be filed immediately if the court gave its assent. Stockwell, despite the fact that the suit was filed originally in his name, appeared for the sinking fund trustees. The court refused to give its decision on the question of reviewing the case. It is expected that this will be given next Tuesday.

The injunction was asked to determine whether the sinking fund trustees have authority to sell the bonds at less than par.

DEEP DIVING IS WITHOUT DANGER IF CARE IS TAKEN

Associated Press Telegram.
Washington, Jan. 7.—"Deep diving is a practical procedure and not attended by great dangers when the proper precautions are observed," is the report today of the officer who conducted the navy department's experiments in deep diving without the use of special apparatus other than that which can be readily supplied with the diving outfits in use on all naval vessels. One man descended to a depth of 274 feet without discomfort, according to the department, and it is believed that divers can reach a depth of at least 300 feet without danger.

FATAL STORM IN GEORGIA AND FLORIDA

SEVERAL KILLED, MANY INJURED, AND GREAT PROPERTY DAMAGE RESULTS.

Residences, Telegraph Poles and Fences Blown Down and Trees Uprooted by Wind.

Associated Press Telegram.
Jacksonville, Fla., Jan. 7.—Three persons were known to be dead and several others injured, and property damage aggregating many thousands of dollars was reported early today as the result of a violent windstorm which swept northern Florida and southern Georgia last night. Wire communication into the affected territory was suspended until after midnight and only meagre details have been received.

The greatest damage apparently was in Georgia and all the fatalities reported were in that state. W. J. Spain was killed at Quitman and Mrs. Thomas Sawyer and her son were killed when their home at Abbeville was wrecked.

Residences, farm buildings, trees, fences and telegraph poles were blown down and in some places, trees were uprooted. Falling timbers injured live stock on many farms. Reports were that much damage was done along the Florida east coast, but its extent has not yet been determined. Little damage resulted in this city.

PITTSBURG FIRE LOSS IS \$175,000

Associated Press Telegram.
Pittsburg, Jan. 7.—Fire starting early today in the basement of a hardware store in Wilkinsburg, a suburb, drove more than a hundred persons from their homes in their night clothes and destroyed three business buildings and the First Church of Christ with a loss of \$175,000.

"Tomorrow is an uncertainty," admonished the Wise Guy. "And even today isn't a sure thing," added the Simple Mug.

Powder Held In Package Sent Through Mails

Associated Press Telegram.
Toledo, Jan. 7.—W. G. France, vice-president of the France Stone company, received a package Tuesday by parcel post which contained enough powder to blow up the postoffice.

The absence of the name of the sender on the box aroused his suspicion and he turned it over to the federal authorities. This morning when combustion experts, working under the direction of the government, opened the box from the bottom it was found that the slightest tip of the lid of the box would have brushed a fragment of sandpaper against a match and ignited the mass of powder.

Mr. France has given the federal authorities several valuable clues.

MAN AND WIFE LOCKED UP ON DRUNK CHARGE

Mr. and Mrs. Albert Wilson of Columbus were registered at Hotel de McClure here Wednesday night after having enjoyed a stop-over privilege on the mid-winter tour of the water-wagon. Which is another way of saying that Albert and his frau were arrested on a drunk charge and held at the city prison. When arraigned before the mayor, Albert pleaded with the court for mercy on the ground that he had patriotically offered his life upon the altar of his country, modestly admitting that he had joined in the more or less general movement of a half century ago to preserve the union. His plea failed to reach the patriotic corner of Mayor Bigbee's heart. His honor takes little stock in the patriotism which develops with a dizzy head. Albert and his wife were admonished to contribute the sum of \$18 to swell the mayor's monthly report, but lacking about eight bits of having a dollar, they accepted the only other provision of the sentence and transferred their baggage to the lodging house in South Third street recently taken over by Sheriff Swank.

Five other drunks, three train riders and two hold for investigation made up the rest of the box score of the Thursday morning session of police court.

TOBACCO CROP DESTROYED BY HEAVY RAINS.

Associated Press Telegram.
Havana, Jan. 7.—The heavy, unseasonable rains of the last week which culminated in a torrential downpour last night, completed the destruction of the tobacco crop in almost all sections of the island. The sugar cane also was injured seriously.

DAVIS BOUND OVER ON CHARGE OF BURGLARY

Sidney Davis, arrested on a charge of burglary, less than an hour after the Brumbach commission house had been forcibly entered, was arraigned before Mayor Bigbee Wednesday afternoon. He entered a plea of not guilty and was bound over to the grand jury under bond in the sum of \$200. It is charged that two turkeys were stolen when the commission house was entered.

Federal Arbiters In Coal Strike Begin Duties

HYWEL DAVIS IN CONFERENCE IN CLEVELAND, AND KEEFE IN INDIANAPOLIS.

Both Say They Enter Upon the Investigation Ordered With Their Minds Open.

Associated Press Telegram.
Cleveland, Jan. 7.—Hywel Davies, one of the representatives of the United States department of labor, appointed by Secretary of Labor Wilson to make an investigation of the eastern Ohio coal strike with a view to bringing about a settlement, arrived in Cleveland today. This afternoon he is to confer with Walter R. Woodford, president of the Ohio Coal Operators' Association.

"I have formulated no plans," said Mr. Davies. "After I confer with Mr. Woodford I likely will have some information with reference to the operators' side of the controversy. Just where I will go next I am unable to say," he added.

Whether Daniel J. Keefe, the other appointee of Secretary Wilson, will come to Cleveland from Indianapolis, where he is today to confer with international officers of the United Mine Workers of America, Mr. Davies said he did not know.

"Both Mr. Keefe and myself begin this investigation with open minds," Mr. Davies said.

STRIKERS MAY RETURN ON OPEN SHOP BASIS.

Associated Press Telegram.
Bellaire, O., Jan. 7.—Announcement was made here today that Youghieny and Ohio Coal company, the Rail and River coal company and the United States coal company, would next week offer employment to their 5,500 striking men on an open shop basis. Those of the miners, it was said, who would refuse to go to work would be evicted from the houses they have occupied since last April without paying rent, to make room for the non-union men who, it is stated, are to be imported if necessary.

Miss Florence Steinhart, of Brooklyn, bathing at Culver's Lake, N. J., foundered in 20 feet of water. She would have drowned had not some one thrown her an inflated automobile tire.

Illiteracy In Children Has Been Reduced

Associated Press Telegram.
Washington, Jan. 7.—Not more than 15 out of every 1,000 children from 10 to 15 years of age in the United States are unable to read and write, according to statistics announced today by the federal bureau of education.

An analysis of the figures shows that in 1900 there were 42 out of every 1,000 children between the ages of 10 and 14 who were illiterate. This number has been reduced to 22 in 1910 and to 15 in 1914.

"From the standpoint of proportional reduction of illiteracy," the bureau says, "Oklahoma leads all states. In 1909 this state had 124 illiterate children of the ages named. In 1910 it had but 17."

According to the bureau Nevada is the only state which has lost ground, since 1900. Its illiteracy was then four; in 1910 it was five. Two states, South Dakota and Nebraska, each having the low rate of two per 1,000 report no reduction in illiteracy between 1900 and 1910.

GOVERNMENT WILL SUE OIL COMPANIES FOR FIFTY MILLIONS.

Associated Press Telegram.
San Francisco, Jan. 7.—The Southern Pacific company and several of its subsidiary oil corporations are named as defendants in three suits involving approximately \$50,000,000 to be filed in Los Angeles today by the United States government, according to announcements made here.

These actions involve the titles to more than 1,000 acres of property in Kern county upon which more than 100 oil producing wells are located.

Putting Up Bars.
The House of Representatives has passed a bill excluding illiterates from the United States. The Senate has made an exception in favor of Belgian farmers, most of whom are not illiterates, and to the list of the excluded it has added those of "the black or African race." In conference it is possible that this measure will be made somewhat more reasonable, but with prejudice of race and of class very active in both branches of Congress, the hope of honest, mainly and reasonable legislation must be faint indeed. From recent votes at Washington it is evident that a great majority of both parties would like to shut out of the United States not only all yellow and black men but a considerable element of the population of Europe. As against the Chinese, Japanese and negro

Every elderly man is looking for a doctor who can cure old age.

The reason a woman says she is getting old is that she wants you to tell her she looks as young as she ever did. If this paragraph doesn't suit you, substitute the word, "man" for "woman."

The most satisfactory and effectual cure for the dissatisfied boy is to permit his ambition to "do" for himself to have full swing.

When a girl makes a "good" marriage, her mother says a little proudly, "Well, she feathered her nest, all right."

It is Eph Wiley's theory that no man can fill a four-flush or draw a pair to a set of threes without betraying the fact to the practiced and observing eye.

Hearing that the black raspberries have been winter killed, Tank Beverly asks recognition by the chairman long enough to move that three cheers be given.

A good many of those who are for a greater navy are fully cognizant of the fact that a greater navy won't cost THEM anything.

Eph Wiley continues to pick at the traditions. Eph says the boy who stood on the burning deck should be held up as a warning, and not as an example.

Give a man unlimited opportunity to talk about himself and he will vote the entertainment a grand success.

SUNNY SMILES.

The sunny smile an asset is, and has a hundred uses; but it won't help you in your biz, if coupled with excuses.

I ordered seven bales of hay from Binx, the local dealer; he said he'd send them right away, with horses and four-wheeler. A broken promise makes me sick, and sore and aggravated; and "right away" means pretty quick, where I was educated. I waited for those seven

bales, and still I was denied them; the horses chewed their manger rails, and ate the ropes that tied them. I called on Binx, that man of guile, and turned loose some orations; and he produced his sunny smile, and fifty explanations. "Your smiles a winning one, indeed," I said, "you blamed old pirate, but that won't give my horses feed when those poor beasts desire it. Hereafter I will buy my hay from Theodore J. Thomas; he doesn't smile in your glad way, but he can keep a promise." I said these things and many more, and criticised his doings; and then I wrecked his fodder store, and gloated o'er the ruins. Whatever you sell—tin banks or tiles—if big success you pray for, don't bank too much on sunny smiles—the goods are what men pay for.

SEVERE RHEUMATIC PAINS DISAPPEAR

Rheumatism depends on an acid in the blood, which affects the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive process.

Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. It acts directly, with purifying effect, on the blood, and improves the digestion. Don't suffer. Get Hood's today.

New Management Takes Charge Jackson Hotel

T. W. Keffer of McMechen, W. Va., located about six miles from Wheeling, has leased the old Jackson hotel at the B. & O. station and will open it to the public on a strictly European plan. He has leased the bar to James A. Stone, who has been connected with the B. & O. lunch room, and the latter will endeavor at all times to conduct a first class cafe and cater to the public by using the best brand of goods that can be secured.

Mr. Keffer comes to this city with the highest of recommendations. He conducted hotels at Benwood and McMechen, selling his hotel at the former place and still operating the one at the latter. He is one of the leading citizens of McMechen, a director in a bank and interested in several industrial institutions. He will have associated with him in the conduct of the local hotel his son, T. W. Jr., a young man of excellent executive ability in the management of hotels, having been associated with his father for some time.

Mr. Keffer intends to make his rooms desirable and inviting to the traveler so that they will be glad to return when again stopping in the city. The beds will be of the best and cleanliness will be the watchword. The prices will be the main feature, cut to half what was formerly charged. The new proprietor will specialize in the culinary department. Everything in the dining room will be European, pay for what you order. The lunch counter will carry everything found in a first class lunch restaurant.

The restaurant department will be something new for the city. It is the intention of the new lessee to cater to ladies and gentlemen of the city for after theatre and dance parties and local patronage. Everything found in a first class grill room in the larger cities will be served at the new Hotel Keffer, as the place has been renamed. All sea foods, etc., can be ordered. Not an improper character will be allowed and Mr. Keffer hopes to merit the patronage of the best people of the city.

The hotel will be entirely redecorated and repainted in the very near future.

Oxford University will send out an expedition of English scientists, with a Polish girl for a guide, to study the origin of the native tribes of Siberia.

CARTER DIED OF OVERDOSE OF LAUDNUM

Rollin Carter, 30 years old, who has been employed as a hack driver at different times, died at noon Thursday from the effects of a dose of poison which he took sometime during Wednesday night at his home, 28 South Fourth street. A physician who was called found that the man had swallowed a dose of laudanum and that there was no hope for his recovery. His death came at noon Thursday.

Carter has been close to death several times in the past several years. He has made other attempts at self-destruction, the last about a year ago when he took bichloride of mercury. He recovered from that attempt.

Six months before that he narrowly escaped death when the team of horses he was driving, ran away in South Second street and threw him beneath a train at the Second street crossing. His foot was crushed under the wheels of the train and the leg was amputated below the knee. He was in the hospital for more than a month.

It is said that domestic difficulties caused him to become despondent and that his attempts at self-destruction were due to that cause. Members of his family refused to discuss his death. Mrs. Carter was not at home when the man died.

Coroner W. L. Jackson viewed the body and gave permission for its removal from the home. Criss Brothers took charge of the body and will have charge of the funeral. This was the first case for Coroner Jackson, since he took over the office of coroner the first of the week.

JACKSON BANQUET

The committee on arrangement for the Jackson banquet to be held tomorrow evening, says the demand for tickets is far beyond its first expectations. Has made arrangements for additional room so as to accommodate all who desire to attend. Tickets will be for sale at the door.

WIFE ARRESTED CHARGED WITH SPOUSE'S DEATH

Huntington, W. Va., Jan. 7.—Mrs. Anna Newton, wife of Jarius Newton, Wayne county farmer, who was shot and killed in his home on New Year's Day, was arrested here today, charged with having murdered her husband. A coroner's jury, on the day of Newton's death, held that the shooting was accidental, but later developments convinced the Wayne county authorities that Newton was murdered following a family quarrel.

It is estimated that 28,000,000 persons attend the 4,500 moving picture theatres of England each week.

REPARATION TO BE REQUIRED OF ENGLAND

(ASSOCIATED PRESS TELEGRAM)

Washington, Jan. 7.—State department officials today began preparing a note to Great Britain asking reparation for the families of Charles Dorsch and Walter Smith, the two Americans fired upon by Canadian troops while duck hunting in the Niagara river. The representations which will be transmitted to the British embassy this week will also ask, it is understood, that the Canadian newspapers ever expected to be presented to the department that they shot to kill. Smith was killed almost instantly and Dorsch is in a precarious condition. Both were residents of Buffalo, N. Y.

NEARLY \$2 FOR WHEAT TODAY IN CHICAGO

(ASSOCIATED PRESS TELEGRAM)

Chicago, Jan. 7.—Two dollars a bushel for wheat, the dream that only enthusiasts ever expected to come true, was within half a cent of being a reality today on one grade of wheat, if the cost of delivery to Europe might be counted as part of the price. It is a fact that a carload of the kind of wheat known as durum was sold today to go to Italy on a basis that figured, delivered at destination, \$1.99 1/2 a bushel.

Such a price breaks all records for durum wheat. The supply of variety in the United States is said to be virtually exhausted for this season.

The Henry S. Denison memorial building for medical research at the University of Colorado, has now been made ready for use. It contains laboratories for research in bacteriology, pathology, physiology, chemistry and clinical methods.

Koehne Lecture Are Attracting Great Interest

Our city has a population of nearly 30,000, yet the First Presbyterian church holds with ease those who are interested enough to attend the magnificent lectures by Dr. John B. Koehne.

Dr. Koehne is a Congregationalist, not a Presbyterian, and comes to us with the wonderful message of the foundation or principals of the Christian religion.

In any gathering where two or three are gathered together and the discussion of religion is taken up every one has views which he wishes to present and no discussion is ever finished to the satisfaction of those interested, now we have a man who with the training and study of a lifetime, with wit and eloquence, and under the most favorable circumstances presents the different phases of Christ's life and pictures the reflection of our own personality, that you may see yourself.

These lectures are such that they command and hold the deepest interest of everyone present from start to finish, and were they exclusive in price or location there would be some excuse for the absence of our citizenship.

The name and fame of Dr. Koehne is practically unknown to you, but if you are liberty-loving or are devoted to the highest ideals of home and public life you should for your own benefit, and for the benefit of your own city, state and country, uphold every effort that is made for the betterment of mankind.

Newark does not need so badly more dollars as she needs patriotic intelligence of the teachings of Jesus Christ.

If your environment is holding you back break your environment and acknowledge the vital necessity by lending your presence and personal influence to the situation that is the inspiration of all that is good, pure and noble in mankind.

Come tonight at 7:30, and get in touch with the movement.

ANTI-ALIEN STATUTE IS NOT VALID

(ASSOCIATED PRESS TELEGRAM)

San Francisco, Jan. 7.—The Arizona anti-alien employment act, adopted by the people of the state at the November election as an initiative measure was declared unconstitutional, null and void here today by a special court of three federal judges.

In brief, the court held that the statute violated the guarantees of life, liberty, and the possession of property made to all alike, whether aliens or not, under the fourteenth amendment to the constitution; and if the state of Arizona could forbid any employer to hire more than 20 per cent of aliens it could with equal justice forbid him to hire 1 per cent, or even an individual alien.

This struck at the vitals of the act which ordered that any employer with a payroll of five or more names must see that at least 80 per cent of those names were of duly qualified electors. Great Britain and Italy protested to the state department an these conditions of employment violated the treaty rights of their citizens.

Seeks Alimony.

Tollie Diehl vs. Walter Diehl is the title of a petition filed in Probate Judge Hunter's court in which the plaintiff states that they were married in the fall of 1909, and are the parents of one child, a babe of nineteen months. She states that defendant was confined in the Ohio Penitentiary and earned considerable money as an electrician and that on Jan. 1, he was pardoned and since then refuses to contribute to support of plaintiff or their child.

Colds Are Often Most Serious

Stop Possible Complications.

The disregard for a cold has often brought many a regret. The fact of sneezing, coughing, or a fever should be warning enough that your system needs immediate attention. Certainly loss of sleep is most serious. It is a warning given by Nature. It is man's duty to himself to assist by doing his part. SUGGESTIONS FOR BEAUTIFYING THE LAWN AND GARDEN

Now is the Time to Begin Work With a View to Next Summer.

Now that the holiday rush is over, the thoughts naturally turn to the coming season's work in the yard and garden. The home owner desires to vie with his neighbors in having a pretty lawn and garden. In order to produce the best effects with a minimum expenditure of time and money he should plan his summer's work while the winter's snow still is on the ground. This will give him ample time to order what ever he wishes from seedsmen and nurserymen before their annual spring rush of trade begins, and will also give him the advantage of a better assortment to select from.

To make a house into a home certain artistic principles should be kept in mind. Houses and other buildings are not natural to the earth's surface and do not appear happy and at ease unless they have "settling." No matter how fine the material or how beautiful the lines of the house may be, it is not pleasing to look upon unless it appears as part of the landscape.

The buildings and grounds should be a picture, the house, of course, should be the central figure but the surroundings should all lead up to it and harmonize with it. A house properly "set" looks home-like and comfortable. The foliage of trees and shrubs is indispensable as a background or frame to the picture which is to be created. Everything—the lay of the land, the shape, the size, the color of the house—all must be considered and complete working plans should be made before proceeding. A half hour with a tape line and a sheet of paper will enable a person to make a sketch of his yard and garden, showing the location of the house, walks, fences, and other objects. On the plan he can then mark the location of the various shrubs, etc., that he may wish to plant when the weather moderates sufficiently. It is impossible to give any set rules for laying out any sort of landscape work for the reason that the individuality of the place must be preserved, and this means that all conditions should be taken into consideration.

While trees make the sky-line an important feature on a large place, yet for a small garden only shrubs should be used for a boundary with perhaps one tree or a group of trees on the north side. It is well if the trees can be planted a year or two in advance of the shrubs and perennials. The border, along the fences or buildings, varying from low shrubs to high trees, furnishes a frame or setting for flowers, shielding the shade-loving ferns and other shade-loving flowers from the sun in one place, giving the flowers the advantage of his rays in another, and protecting the whole from the sweep of the wind. Remember, the desired effects cannot be realized in one or two years.

Shrubs may be used as a screen to hide unsightly objects, such as a neighbor's stable or an old fence. A barrier of living green makes any unpleasant object practically non-existent whether the space be large or small. If privacy is desired the shrubby border may be so arranged as to almost completely exclude the outside world and yet allow views which will add a great charm to the grounds.

Avoid isolated specimens of shrubs. A better effect will be obtained by grouping them and planting the tall varieties in the background, using the lower and dwarf varieties in the front. Do not plant shrubs in straight lines as is so often done. It is well in outlining the border to have deep bays which will give a greater distance and also carry with them the idea of a mysterious passage to something beyond.

Do not plant the tall growing shrubs in front of the windows. If planting for winter effect as well as summer, there are many forms of evergreens, especially the dwarf varieties, that can be used in the beds in front of the walls. All shapes and sizes may be had to suit the architecture of the house.

The varieties of shrubs are so many that a person may be puzzled when it comes to the selection. A succession of bloom may be had for about eight months of the year, while during the other four months the red, yellow, and green twigs of some shrubs, and the bright berries of others will tend to liven the dreary winter landscape. Common mis-

takes that are made are either isolated shrubs, too great a variety on a small lawn, or too many plants with highly colored leaves.

In planting the border of shrubbery, all that is necessary is to dig up the soil to a depth of one or two feet, give a liberal supply of manure—preferably from a cow stable—plant in the fall after growth has ceased or in the spring early enough for the plants to feel at home before the hot dry weather of the summer. After receiving the shrubs from the nursery, plant them as quickly as possible to prevent the sun from drying out the roots. Set them as deep, or a little deeper than they were in the nursery row. This can easily be determined by noting where the dirt had been in contact with the roots and stem. Plant about three feet apart. If set closer than this they will look crowded, while if farther apart they will look lonely. In two years the branches will intermingle, and probably in five or six years it may be necessary to remove every other one of the shrubs and plant them in some other place. When planting, trim back the branches to balance the loss of the roots.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

NOTICE OF APPLICATION BY ADMINISTRATOR OR EXECUTOR TO REGISTER TITLE TO AND TO SELL LAND TO PAY DEBTS

In the Probate Court of Licking County, Ohio.

Malcolm H. Baker, Administrator, Plaintiff,

vs.

Stephen E. Jones et al, Defendants, To Stephen E. Jones, Esther A. Fugh, Sadie Davies, David James, The State Trust Co., The State Bank of Chicago, Archie Davis and Chas. D. Lake and to all persons having any interest in or lien or charge upon the lands or any part thereof described herein. You are hereby notified that an application has been filed in said court by Malcolm H. Baker as administrator with will of Jane S. Jones deceased, to settle, determine and remove all clouds from and register the title of said Jane S. Jones deceased, in and to and to settle, determine and register all lesser or other estates and interests in, and all liens and charges upon, the following described lands, to-wit:

First Body of Parcel. Situate in the city of Newark, county of Licking and state of Ohio and bounded and described as follows, to-wit: Being in-lot number three hundred and seventy-seven (377) in Council addition to said city of Newark, according to the re-numbering of lots in said city, and being lot No. 14, Sherwood Addition, according to the Council addition to said city of Newark, and being the same premises as were conveyed to William L. Jones, husband of Jane S. Jones, now deceased, by Reese E. Darlington, by deed bearing date October 19, 1859 and recorded in Volume 78 of Deeds, page 58 in the Recorder's office of said Licking County.

You are further notified that the above named plaintiff also avers in said application that the debts against and costs of administering the estate of said Jane S. Jones deceased, are in excess of the value of her personal estate and that it is necessary to sell said real estate to pay said debts and costs, and that an order to sell said real estate for such purpose is asked for in said application.

You are hereby required to answer said application on or before the 7th day of January, A. D. 1915, and show cause, if any you have, why the prayer of said application should not be granted. And unless you appear at said court on or before the time aforesaid and make answer or other plea to said application your default will be recorded, the said application will be taken as confessed, and you will be forever barred from contesting said

application or any decree entered thereon.

The W. H. Mazy Company will complete their invoicing tomorrow and will be obliged to close at 3 o'clock in order to call all their merchandise stocks. So they urge their customers to come in the morning, or early in the afternoon. The store will be closed at 3 o'clock, Friday only.

Up-to-Date City.
Marion has ordered a motor ladder truck and will also purchase a motor wagon for the fire chief. They now have motor hose trucks. All horses on fire apparatus in every part of the city will be done away with. One of these days Newark may fall in line and join her more progressive sisters of the state.

Freight Traffic Increases.
Freight service on many of the railroads of the country is picking up. More trains are being run eastward. There were more eastbound freights through Newark the past two weeks than there have been in two months previous. This is caused by the roads handling many consignments of goods to Europe. Trainloads of meat, horse feed and grain are being shipped for points across the ocean. Officials look for a big business boom within the next month.

Two Full Moons.
Newarkites can witness two full moons this month, none in February and two in March. Weather observers state that such a circumstance occurs but twice in a lifetime.

January Thaw.
There was a regular January thaw Wednesday when the thermometer rose to 48. This in connection with the continued rain for nearly 24 hours caused most of the ice and snow which had been on the ground since early in December to disappear.

Pomona Grange Meeting.
Licking County Pomona Grange to meet at Hanover, Saturday of this week. We have positive assurance that L. J. Taber, the newly-elected master of the Ohio State Grange, will be present at this all-day meeting. Every granger that fails to attend this meeting will miss a rare treat.

District Meeting.
District No. 2 of the Central Church of Christ, met Wednesday afternoon at 2:30 o'clock at the home of the leader, Mrs. Alonzo Cochran, 47 Cottage street, for the purpose of a devotional and business meeting. Owing to the disagreeable weather attendance was small. Those present were: Mrs. Mary E. Hughes, Mrs. Alonzo Cochran, Mrs. James Layman, Miss Nellie Hall, Mrs. John Cannon, Miss Aurelia Foster, Mrs. Edward Jones, Mrs. Harold Stair and Mrs. William Keckley.

Appointed Associate Teacher.
Mrs. Marjory Coulter Cochran of 22 North street has been appointed by Mrs. Roe as associate teacher in the extension department of the Sherwood music school. Mrs. Cochran studied music for three years

under Mrs. Charles White of Granville and also at the Sherwood school of music in Chicago. For several years Mrs. Cochran has taught music in this city.

Missionary Society.
The Missionary Society of the First Presbyterian church will meet in the church parlor Friday afternoon at 2:30 o'clock.

R. & O. Veterans Meeting.
There will be a regular meeting of the Veteran Employee's Association in the Convention Room of the Court House, Friday evening Jan. 8th, 1915, at 7:30 o'clock sharp. Election of officers. E. L. Weisgerber, president.

Altar and Rosary Society.
The Altar and Rosary society will meet at the home of Mr. Holtschulte 74 Leroy street, Friday afternoon at 3:00 o'clock and Saturday morning at 9:00 in St. Francis de Sales church.

Forester Team Dance.
The invitations have been issued for the M. W. of A. Forester team dance will be given on the 26th inst., at M. W. of A. hall in South Park place. Tickets can be secured of members of the team.

Cottage Prayer Meeting.
The Union Cottage prayer meeting will be held at the home of P. O. Dutcher, 57 Madison avenue, Friday evening at 7:30. Everybody invited.

St. Lewisville Services.
Preaching services at St. Lewisville Sunday, Jan. 10. Morning 10:30. Evening 7:00. Vanatta, Jan. 10, afternoon at 2:30. Evangelistic services began at St. Lewisville Sunday evening, Jan. 10. H. L. Greenwalt, pastor.

Secure New Quarters.
The O. E. Employees Association of this city has moved its club rooms from West Park Place to the second story of the interurban station in East Main street. A number of the members were busy today assisting in moving the furniture, pool tables, library, etc.

Suffrage Meeting.
There will be a meeting of the Licking County Equal Suffrage league at the Y. W. C. A. tomorrow afternoon at 2:30. These will be reports of the state convention and a reading of the new plan for work as adopted by the convention. All members and friends of the movement are requested to be present.

To Participate in Parade.
Fletcher S. Scott was called to Columbus Wednesday in consultation with Republican leaders regarding the inaugural ceremonies of Governor-elect Frank B. Willis. There will be a turnout of all ex-Ada students of the state, regardless of party affiliations and Mr. Scott hopes to see every old Ada student in Licking county in the line. Former Prexy Lehr and present Prexy Smith will head this division of the parade.

Company B, Old Guard.
There will be a special meeting of the company and its drum and hospital corps in the Armory, Saturday, January 9, at 2 p. m., sharp, to complete arrangements for special escort duty at inauguration of Governor Frank B. Willis, Monday, January 11, and other important business to come before this meeting for action. Every member of the company and its drum and hospital corps is urged and required to be present on time for duty. By order of Matthew Bausch, captain commanding Company B, Old Guard; J. W. Leidigh, adjutant.

BEASLEY RETURNS WITH HIS MEDAL; HAS QUIT NAVY

Quartermaster Harry Beasley of Maple avenue, has returned from New York City where on Wednesday he was presented with a medal for heroism, shown during the seizure of Vera Cruz. The presentation was made at the Brooklyn navy yards.

Mr. Beasley, since entering the navy, has been stationed on the USS. The Chester, and the USS. The Scorpion. On the latter he was located at Constantinople and was in Turkey for two years. Had returned home on the Florida and was then sent to Mexico, where he took part in the seizure of Vera Cruz, and for his gallant work there was promoted and in the award of the medals he received one.

The medal is of bronze, and on the reverse side is engraved the following inscription:

"For extraordinary heroism in the line of his profession in the seizure of Vera Cruz, Mexico, April 21, 1914. Harry C. Beasley, U. S. S. Florida."

He was also presented with a blue boutonniere to be worn in the lapel of a civilian coat.

Mr. Beasley served in the navy until the 21st of last July, when he was paid off and he is now out of the service.

"ZUDORA" SHOWN AT THE GEM TOMORROW.

Episode No. 3 of the Thanhouser Film Co.'s new serial featuring Marguerite Snow and Harry Benton, entitled "Zudora." The title of the third episode is "The Mystery of the Dutch Cheese-maker," and it is the third case out of the twenty that "Zudora" has to solve before she can marry John Storm.

"Loosey's Element," a two-part Thanhouser drama, featuring Mignon Anderson and Morris Foster, and other good pictures at the Gem, Friday.

Saturday, a roaring Keystone comedy, "Hogan's Wild Oats," and a special two-part Domino feature.

Next Monday Mary Pickford, the world's best-known movie actress, in a great five-part Famous Players production, "The Eagle's Mate."

Irving Cummings in "Conscience," a two-part drama, at the Gem tonight.

OFFICIALS AT STATE HOUSE READY TO GO

BUSY WINDING UP THEIR AFFAIRS AND FIXING THEM FOR SUCCESSORS.

Examiner Making List of Books and Records to be Turned Over to Governor Willis.

(ASSOCIATED PRESS TELEGRAM)
Columbus, Jan. 7.—The state house had the appearance of "moving day" today, though the change of administration does not actually come until Monday.

The departments of the executive, secretary of state, treasurer, attorney general and adjutant general particularly were busy winding up their affairs and putting them in shape for the successors. Attorney General-elect Edward C. Turner and his corps of assistants and special counsel held conferences all day with Attorney General Hogan and his deputies, to discuss cases and problems which will be handed to the new administration. A flood of opinions were handed out by Attorney General T. S. Hogan today.

In the executive office, George F. Burba, secretary to Governor Cox, already had returned to his home and his editorial desk in Dayton. An examiner from the auditors office was making a detailed list of books, records and furnishings which will be turned over by Governor Cox to Governor Willis. The adjutant general's department also was engaged in putting the finishing touches on a great inventory list of national guard uniforms, arms and other equipment, to be given to Governor Willis as the new commandant of the military.

Not more than a dozen legislators were in evidence about the assembly chambers today, but clerks and their assistants and sergeant-at-arms were busy preparing for the legislative grind which will begin next week. Speaker Conover was locked in his private office at work on lists of house committees. He expects to announce them early in the week.

Deputies and clerks in the office of Budget Commissioner W. O. Heffernan have been working from 8 a. m. to midnight for a week in order to complete the budget draft to be presented to Governor Cox Saturday night. The governor expects to spend part of Saturday night making a final survey of the budget and will send it to the house when it convenes Monday morning.

State Treasurer John P. Brennan expected to make a final report of funds and credits in his possession late today.

Stenographers and clerks in all departments will hold under the new administration, being protected by the civil service law.

Governor Cox will return to his home in Dayton and the management of his newspaper interests thereafter inauguration of his successor Monday.

Secretary of State Graves has rented offices in Toledo and will resume practice of law there. Frank R. McElroy, assistant secretary of state, will go into the retail grocery business in East Toledo. Attorney General Hogan will practice law in Columbus. A number of special counsel employed in his department during the last four years also will open law offices here.

State Treasurer John P. Brennan will stay in Columbus but has not decided definitely what business he will enter. Adjutant General George H. Wood, also will remain in Columbus temporarily instead of going to his home in Dayton. Assistant Adjutant General E. M. Peoples has contracted to enter a tent and awning business in this city.

PLATE WINDOWS TO BE PROTECTED FROM INJURY AT SALUTE.

(ASSOCIATED PRESS TELEGRAM)
Columbus, Jan. 7.—Plate glass windows in office buildings fronting the capitol square will be respected next Monday noon, when the salute of seventeen guns will be fired a moment after Governor Willis takes the oath of office. Two years ago they were fired in the state house yard and scores of windows were broken. This year battery C under command of Major H. M. Bush, of Columbus, will take its guns to the east bank of the Scioto river, two squares from the capitol. Members of the signal corps will signal when the last word of the oath has been spoken.

Decorating of the capitol with flags, bunting and evergreen vines had been nearly completed today. Carpenters were at work on the reviewing stands in Broad street bordering the capitol square and the platform and seats on the west steps of the state house where the inaugural ceremonies will occur.

Arrangements were being made today for outgoing officers to greet the newly elected officials when departments change hands Monday. Attorney General T. S. Hogan will meet Edward C. Turner, his successor at the door of his general offices at 10 o'clock Monday morning, and welcome him to the new post. A judge of the Supreme court will administer the oath of office to all new officers.

The committee of the Columbus Chamber of Commerce in charge of inaugural arrangements today sent two tickets of admission to the reviewing stand to each incoming and outgoing state official, and three to each legislator. Admission will be by ticket only.

Granville

(Special to The Advocate)
Granville, Jan. 7.—Prayer services are being held every evening this week, at the Baptist church with a good deal of interest manifest. Last evening the topic was the Sunday school and the pastor called on Superintendent E. E. Hopkins, on Dr. W. A. Chamberlin, superintendent of the student division, on Prof. Theodore Johnson of the Intermediate department, and on Mrs. Biegs of the Infant department of the Sunday school, who gave some interesting reports of the work done among the young people. All spoke of the need of better equipment for this important branch of church service.

Rev. C. J. Rose is in Columbus for the day. Judge and Mrs. J. M. Swartz, who went to Fort Valley, Georgia, before Christmas to spend the holidays with their son-in-law and daughter, Mr.

and Mrs. Frank Witheft, have returned home. Miss Nellie Wolcott, who has been visiting Miss Dorothy Swartz, has returned to her home in Columbus. Miss Frances Jones, daughter of Mr. and Mrs. J. S. Jones, who has been spending the holidays at Bryn Du Farm, has returned to Miss Wright's School for Girls in Philadelphia. Miss Rosa L. Kell, who left Granville before Christmas for a winter in California, is delightfully located at No. 1137 West Thirty-sixth street, Los Angeles. She writes that the air is a tonic and that her health is already greatly benefited by the change. There are many Granville and Licking county people in Los Angeles, and quite a large Denison club. Mrs. Fred Holden (Maud Thompson) of New York, is visiting her relatives here and in Columbus. Rev. and Mrs. C. N. Harford, after a visit of some weeks' duration at the home of their son-in-law and daughter, Rev. and Mrs. C. D. Eddy, of Indianapolis, have returned to their home in Elm street.

DECLARATION OF NEUTRALITY DOES NOT SUFFICE VILLA

(Associated Press Telegram)
El Paso, Texas, Jan. 7.—Governor Avila of Yucatan, who has declared himself neutral in the Carranza convention controversy in Mexico, will not be accepted by the convention government. It was learned today that Dr. Augustin Patron Corea has been appointed by the Mexico City party to replace Avila. He will sail this week from New Orleans for Progresso.

Avila in declaring his neutrality denounced the government of Carranza, which previously he acknowledged. Villa officials say that if he does not turn over his office to Corea, troops will be sent to invade the "neutral" state.

ACCUSES HIS WIFE OF
HAVING THREE HUSBANDS;
WANTS A DIVORCE
(Associated Press Telegram)
Toledo, Jan. 7.—Joseph M. Pfeiffer, proprietor of a restaurant, in a petition for divorce filed in common pleas court today, accused his wife, Ray Everett Pfeiffer, of having three husbands living at the present time. The petition states that Mrs. Pfeiffer married husband No. 1 in New York five years ago. She married No. 2 in Pennsylvania in 1911, according to Pfeiffer, who objects to being No. 3.

IRON TRADE REVIEW.

Cleveland, O., Jan. 7.—The Iron Trade Review today says.

The extent of the slump in manufacturing which took place last year is indicated by the figures of pig iron output, which was 22,970,926 tons in 1914, compared with 30,852,767 tons in 1913, which had held the record, although 1913 was not a satisfactory year in business. The production for December was 1,495,325 tons, a loss of 5944 tons compared with November. The average daily production for December was 48,236 tons, a loss of 1806 tons compared with November.

The encouraging fact, however, is that railroad buying has started in a moderate way and that there are many indications that fair business will be booked during the first quarter. The Steel Corporation which was operating at only 28 per cent of its capacity at the close of the year is now operating at 40 per cent.

TATTLERS MADE OF
BOYS, AND JUVENILE
COURT ABOLISHED.

(Associated Press Telegram.)
St. Louis, Jan. 7.—The junior juvenile court of St. Louis, in which young lawyers acted as judges and school boys as police officers, has proven a failure. The court tended to make tattlers of the boys it sought to correct and will therefore be abolished. This was announced last night by Justice Rhoads of the juvenile court.

The junior court was launched several months ago, as an experiment to try boys for offenses not serious enough for the juvenile court. An offender could be sent to carry coal or mother's dish, or a "good boy," but the junior court has no authority to compel fulfillment of the sentence.

Big Order For New Cars Was Placed by B.&O.

(Special to The Advocate)
Baltimore, Jan. 7.—Announcement was made by the Baltimore & Ohio railroad yesterday that contracts have been made for the purchase of 2000 freight cars, 1000 box cars and 1000 steel hopper cars, and options, have been taken on an additional 1000 box cars and 1000 steel hopper cars. At the same time prices have been asked on 25,000 tons of nails. The order for the 1000 steel hopper cars was placed with the Cambria Steel company of Johnstown, Pa., and the box cars will be purchased from the Mt. Vernon Car Manufacturing company, Mt. Vernon, Ill. The contracts made for 2000 freight cars call for prompt delivery and it is expected that work on the new equipment will be started immediately. The new equipment ordered will involve an expenditure of between \$1,500,000 and \$2,000,000.

CHICAGO BAKERS
CONSIDER RAISING
PRICE OF BREAD.

(Associated Press Telegram.)
Chicago, Jan. 7.—Bakers are considering raising the price of bread to six cents a loaf, an increase of one cent, it became known today, as a result of the advance in the price of wheat and flour. Wholesale flour is quoted at \$6.50 to \$7.50 a barrel, an advance of fifty cents during the last three weeks.

BILLS TO ABOLISH CAPITAL CRIMES IN 38 STATES

(Associated Press Telegram)
Chicago, Jan. 7.—Bills abolishing capital punishment in murder cases will be introduced in the Illinois legislature and thirty-seven other states within the next few weeks by the Anti-Capital Punishment Society of America, it was announced today. The society is planning a nationwide fight on hanging and electrocution. It seeks to have life imprisonment substituted on the statute books.

TIMBER TO ENGLAND FROM UNITED STATES.

(Associated Press Telegram)
Kansas City, Jan. 7.—A lumber company here today signed contracts to furnish 50,000,000 feet of timber to be shipped to England. The lumber will consist chiefly of ties and mine timbers.

The timber, it is said, will be shipped to Port Arthur, Texas, for transportation to England.

Co. G will leave Monday morning at 7:30 o'clock on a special car for Columbus. Transportation will be free and dinner will be furnished the soldier boys in the Capital City.

It is desired that every member of the company be present and the local company hopes to make a good showing. A good time is promised with the chance of meeting many old comrades.

POSSE

CAPTURED FARM HAND SUSPECTED OF FIENDISH OUTRAGE AND MURDER.

Woman Attacked While Husband Was Absent From Home, and Her Throat Cut.

(Associated Press Telegram)
Huntingdon, Pa., Jan. 7.—After a posse had searched for him all night, Adam Snyder, 20, a farm hand, charged with having mistreated and murdered Mrs. Rebecca Port on her husband's farm at Neffs Mills, was captured today in a public school house at Barre, seven miles from the scene of the crime. He was exhausted and had sought shelter from a heavy rain storm.

Mrs. Port was attacked while her husband was absent from the farm. Her throat was cut and her body hidden under a potato box in the cellar of the farm house. The crime was discovered when the husband returned and as Snyder had disappeared the police suspected him of the murder.

Snyder was recently paroled from the state reformatory at Huntingdon where he had been sent on a charge of larceny.

COTTON CARGO IS HOLD UP IN DENMARK.

(Associated Press Telegram)
Esbjerg, Denmark, Jan. 7.—(Via London.)—The American ship Carolyn, Captain Mitchell, from Boston, Dec. 14, with a load of cotton for Bremen, has been held up here because of the refusal of the local pilots to risk navigating the mine fields.

Captain Mitchell is going to take his ship up the Lister Tied channel in the hope of picking up a pilot who will take him into Bremen.

Argentina now has 143 banks.
